  b. Noted a paper on Iran had been prepared as directed by the
DCI, however, he did not believe as presently written it was acceptable
for dissemination outside the Agency. The Director undertook to review
this paper and approved Mr. Amory's suggestion that a copy be sent to ONE
since the Board of National Estimates is in the process of preparing an
estimate on this area. The Director noted his concern over the fact
that there was no established procedure whereby papers prepared on
"potential trouble spots" could be made available to the proper officials,
and after some discussion it was agreed that this could be overcome by
providing such papers direct to the Secretaries of State, Defense and
Mr. Cutler with a copy being furnished Mr. Amory for his use on the
Planning Board level. It was also agreed that the above-mentioned DD/P
paper would be handled in this manner.

Mr. Kirkpatrick:

  a. Reported that Senator Byrd was going to Europe in place of
Senator Saltonstall and recommended that he receive a briefing. The
Director approved.
